### Corrigendum

Page 16

The following paragraph should be added at the end of the Minutes:

"18. Procedures

"The representative of Argentina, speaking on a procedural matter, referred to the very great number of items which had been raised under Other Business and thereby added to the regular agenda. He considered this to be against the order and efficiency of the work of the Council. His delegation had not spoken on any of these items, although some of them were of great importance to his Government, but this in no way affected the position of his delegation. He suggested that delegations wishing to add an item to the agenda should notify the secretariat in time to enable other delegations to be informed of such a matter.

"The representative of Jamaica supported the representative of Argentina."
