Mr. Moreira da Silva's remarks should be deleted and replaced by the following :

Mr. MOREIRA DA SILVA (Brazil) stated that when this item was placed on the agenda of the meeting of 24 February, the Brazilian delegation requested the postponement of the discussion because they expected to receive official information from their Government. His delegation sent a telegram to its government on that day explaining this and he wished now to inform the Contracting Parties of the official reply of the Ministry of Foreign Affairs which stated that the necessary measures to comply with the undertaking by his delegation in Annecy had been taken. However the amendment of the laws on internal taxes insofar as they were incompatible with the terms of the General Agreement had not yet been effected. The Contracting Parties

would be informed as soon as this occurred. If, however, the amendment had not been effected during the Fourth Session or immediately thereafter, the Brazilian delegation proposed that the matter be placed on the agenda of the Fifth Session.
